INDONESIA'S PREMIER TEAK FURNITURE

At indoor Furniture, our number one goal is to create distinctive teak furniture that stands the test of time. We lead the way in furniture trends and innovation by combining modern European design and local Indonesian craftsmanship to transform sustainable teak wood into works of art that will last for generations.

We are headquartered in Central Java, widely known as the epicenter of fine teak wood furniture manufacturing. Our local factory employs some of the greatest carpenters in the world who expertly implement European production techniques, providing our customers with the highest quality products at the most affordable prices on the market.

With over 40 years of experience in the industry, we predominantly serve wholesale distributors and manufacturers as well as export custom teak furniture pieces. We are proud to be the trusted supplier and partner for a variety of retail showrooms, hotels, restaurants, resorts and private residential projects across the globe.

Contact us today or browse the collection and discover the prestigious yet inviting world of indoor Furniture.
